

Q & A CERA_ELECTRONICS COLLECTION – MATERIALS COLLECTOR

Q1. Will Dynamic only need labor, and all collected materials will go to them?

A1. In addition to labor all electronics must be properly sorted, placed on pallets, and shipped to Dynamic. In this case, yes, Dynamic collects all the material.

Q2. Where is the exact location for the event to take place? Edwardsville?

A2. Over the last few years, we have used a permanent location with an existing electronics recycler. However, remote collection locations can be established with county and local gov. approval.
